

HOSPITAL INDEMNITY SALES SCRIPT

MEDICARE RETIREES • BRONZE / SILVER / GOLD • ONE-CALL CLOSE

With coaching notes • For Phase 1 cross-sell and Phase 2 lead-mode calls

This script is designed for one-call close on Hospital Indemnity Protection (HIP). Read the bracketed brand items as your own; let the client self-select on Bronze / Silver / Gold; never pressure. Coaching notes call out the moments where most agents lose the client — slow down on those.

SECTION 1 — OPENING FRAME (INBOUND, CONFIDENT)

"Hi [Name], this is [Agent] with [Company]. How can I help you today?"

► *Pause for the transfer agent to introduce the client.*

"Thank you and it's a pleasure to talk with you today, [Client]. My role today is simple — we'll walk through solutions designed to help manage out-of-pocket hospital costs. We'll go over how people typically handle these expenses and see which level, if any, fits how you prefer to manage your savings."

"Before we get started, I do have to let you know this call is recorded for quality and training purposes."

◆ **Coaching:** Recording disclosure is non-negotiable. Always at the top of the call. No exceptions.

SECTION 2 — RETIREMENT PROBLEM FRAME (SAVINGS, NOT INCOME)

"Once on Medicare, the biggest financial risk usually isn't income loss — it's unplanned expenses."

► *Pause.*

"When unexpected healthcare expenses come up, do you have a plan in place to cover them?"

► *Pause. If they confirm an account, ask:*

"Ok great, is that with Chase, Wells Fargo, Bank of America, or who are you with? And is that a checking or savings account?"

◆ **Coaching:** UNL requires a bank account — you cannot use a card. Verify a checking or savings account on the call before proceeding.

If they do not have a plan or are unsure, confirm they have a bank account:

"If God forbid something happened and you had to pay for a hospital stay, where would those funds come from?"

◆ **Coaching:** Keep pressing until you verify an account. Do NOT pass this step without account verification.

SECTION 3 — AWARENESS (COPAYS & DISRUPTION)

"Medicare does an excellent job covering care, but hospital stays are still the largest gap in your coverage. The average stay in a hospital for a Medicare recipient is 7 days. Depending on your plan coverage, that can easily be a \$1,000+ bill."

"How do you feel about spending several thousand dollars from [the account they named] for something you didn't plan for?"

◆ **Coaching:** Let them label the discomfort. Don't step on the silence — that pause is the sale.

SECTION 4 — REFRAME (KNOWN VS. UNKNOWN)

"Hospital indemnity doesn't replace Medicare. What it does is turn an unpredictable expense into a predictable one."

"Instead of wondering if you'll need to pull from savings later, you decide ahead of time how much protection you want."

"When you are hospitalized, UNL (or GTL) will mail you a check directly to pay the hospital bill. You can use this money however you'd like — at the end of the day, it is just cash."

◆ **Coaching:** Never say "replaces Medicare" or "long-term care." Compliance violations both. The product works alongside Medicare; the cash is theirs to use however.

SECTION 5 — BRONZE / SILVER / GOLD INTRODUCTION

"Most people choose one of three approaches depending on how much they need and can afford. My job is to help you pick affordable coverage that will stay in place so it is ready when you need it. Make sense?"

"We'll go over three options today and I'll explain how each one functions. Your job is to let me know which one fits your needs and budget best. Remember, I can always adjust if you want more or less coverage."

BRONZE

"The first option here is our Bronze option. It will cover [X] if you are hospitalized and costs [X] per month."

► *Explain any riders if you added them.*

SILVER

"The second option here is our Silver option. It will cover [X] if you are hospitalized and costs [X] per month."

► *Explain any riders if you added them.*

GOLD

"The last option here is our Gold option. It will cover [X] if you are hospitalized and costs [X] per month."

► *Explain any riders if you added them.*

SECTION 6 — SELF-SELECTION (CRITICAL)

"Between Bronze, Silver, and Gold — which meets your needs and budget best?"

◆ **Coaching:** *Stop talking. Let them choose. The agent who fills the silence loses the sale.*

SECTION 7 — START THE APPLICATION PROCESS

"Great, let me pull up the paperwork to get this taken care of for you. Could you grab a pen and paper to write down my information and your policy information while I work on this?"

SECTION 8 — POST-DECISION WRAP-UP

Read after the application is complete.

IF THE APPLICATION IS PENDING (NOT APPROVED ON THE SPOT)

"Alright, I have gotten the application submitted for you! The carrier will review and let me know in a few days if you have been approved. I will give you a call then, and they will send your policy information to you in the mail. Is the number we are talking on a cell phone I can text? Great — let me text you my information. My office will also be texting you later, but I want you to have my personal line in case you need anything urgent. I will give you a call here in a few days letting you know when you have been approved and we are all done. Any final questions for me before we hop off the phone today?"

"Ok, perfect! Also, if you ever have any questions about your Medicare benefits, we are happy to help do a review and make sure your benefits are meeting your needs."

◆ **Coaching:** Only offer the Medicare review if they purchased a plan. Do NOT refer unless they enroll.

SECOND CALL — APPROVAL CONFIRMED

"Hi [Client], it's [Agent] — I helped you with your hospital indemnity plan a few days ago. How are you? Great, well I just wanted to call to let you know that they approved your application! You will get your policy in the mail here in about a week. Make sure you keep that in a safe place with my number attached to it. This is my direct line I am calling you from, so you can call or text me anytime. As a reminder, if God forbid you are hospitalized or take an ambulance, please call me so I can help you file the claim. Do you have any questions about anything we went over? Ok perfect — well, you have a blessed day and let me know if you need anything! And if you have any family or friends that could use my help covering the gaps in their plans, please send them my way. Thank you and talk soon!"

IF APPROVED ON THE SPOT

"Congratulations, your policy has been approved! You will get your policy in the mail here in about a week. Make sure you keep that in a safe place with my number attached to it. This is my direct line I am calling you from, so you can call or text me anytime. As a reminder, if God forbid you are hospitalized or take an ambulance, please call me so I can help you file a claim. Do you have any questions about anything we went over? Ok perfect — well, you have a blessed day and let me know if you need anything! And if you have any family or friends that could use my help covering the gaps in their plans, please send them my way. Thank you and talk soon!"

COMPLIANCE QUICK CHECK — EVERY CALL

✓ Recording disclosed up top • ✓ Bank account verified before quoting • ✓ No "replaces Medicare" / "long-term care" / "guaranteed approval" • ✓ UW HIP first → HHC + rider → GI as last resort
